

The Spatial Distillery Company Joins Google Cloud Partner Program
Offering location intelligence solutions & #MakingSpatialSimple.

Melbourne, Australia, November 12, 2020—**The Spatial Distillery Company Pty Ltd**, today announced that it has joined the Google Cloud Partner Program as a Google Premier Partner giving Google Cloud customers the ability to unlock the power of location intelligence solutions & spatial data.

As a Google Cloud partner, The Spatial Distillery Company offers customers innovative location based solutions which distill a complex world and help businesses locate success. The Spatial Distillery Company provides industry specific location analytics and web mapping solutions for Telecommunication, Retail, Financial Services and Government organisations across Australia & New Zealand.

“We are excited to join the Google Partner Program and look forward to bringing Google Maps & Google Cloud solutions to our clients through our Saas solutions NetworkAccess & The Distillery. This a key partnership for The Spatial Distillery Company as we continue to expand our business in the region.” Nigel Lester, CEO & Founder, The Spatial Distillery Company.

The Spatial Distillery Company founded in Melbourne Australia is a leader in Location Software & Data Solutions. Providing the highest quality spatial data & location intelligence solutions available, coupled with expert advice and outstanding customer service, we help organisations focus on their core business whilst we distill the complex world of location by building solutions to help more businesses succeed.

Our goal is to revolutionise business by unlocking the power of location and making spatial simple.
