Digital
Innovation
Delivered

Engaged
Community

{Nationally, digital transformation was the highest-ranking priority for Local Government organisations.}

79%

79% of the leaders said their Council was positively impacted by technology.

93%

Council's surveyed said
improving service delivery as
their number one technology
outcome.

“Community expectation of
councils are growing faster
than budgets, with 78% of LG
senior execs surveyed said
they are required to “do more
with less”.

IBRS Local Government Report - 2020

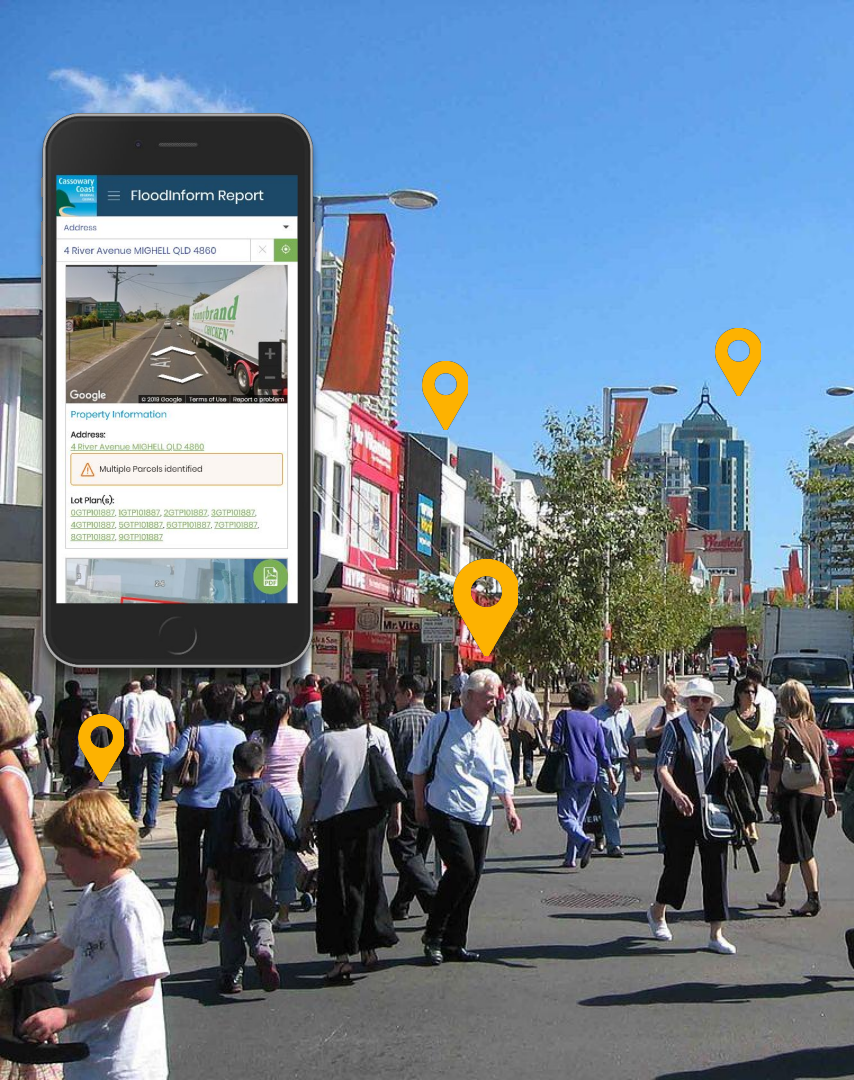

“Digitising a complex transaction can save councils \$90 - \$350 per transaction while simple transaction will save \$20- \$50 saving per transaction.”

IBRS Local Government Report - 2020

#EveryLocationCounts

Local Councils are concerned with matters close to our homes, such as building regulations and development, public health, local roads and footpaths, parks and playing fields, libraries, local environmental issues, waste disposal, and many community services.

Leveraging location can assist across local government

Make it easy for staff & citizens to access services & information

- **Mobility is critical - Mobile Field Apps**
- **On-demand access to information & resources**
- **Allow both staff & citizens self-service their needs. Wherever and whenever they need.**

SPECTRUM SPATIAL TRUEVIEW

- Build dynamic and engaging reports with ease
- Go beyond traditional GIS and combine numerous data-sources in real-time using their native languages
- A “Solution Builder” with configurable charting, media, form, and mapping components
- A strong emphasis on interactive reporting that adjusts based upon form-factor and scenario
- Built with agility at its core, and with common API connectivity methods already in place

FloodInform Report - Cassowary Coast Regional Council

72 Ernest Street INNISFAIL, QLD 4860 Produced: 17/06/2020

Flood Level Information

Flood Levels
 2% (% chance in any year) 2m
 1% 3m

Ground Levels
 from: 4.5m Land Elevation to: 6.0m

NOTE: A Minimum residential floor height of 0.6m AHD has been identified based upon a 200mm above the 1% AEP event.

No flood related flags for this property

There are no flood related flags associated with this property

Explanation

m(AHD) - Metres Australia Height Datum. The level of 0.0m AHD is approximately sea level.

Flood Levels - The Flood level bar chart above shows the possible flooding level reached or exceeded in any year. Refer to 'Useful Definitions' for further information.

Minimum Habitable Floor Level - Applies to residential development only. It is the lowest level that a property is in an overland flow path, or a level cannot be provided. Refer flood and planning development flags below.

Ground Levels - The green line above shows this property's approximate lowest available information (2014 airborne laser survey) to Council. If you are building information and definitions please refer to the Useful Definitions section.

Flood and Planning Development Flags

This property may also be affected by one or more flood, coastal or waters. These include:

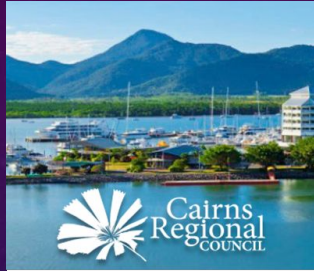

Please review the technical summary over page and refer to Council's planning department for further information.

SPECTRUM SPATIAL TRUEVIEW – EXAMPLE SITES

Property Report Tool

Council's CairnsPlan Property Report tool is an easy and convenient way to access planning scheme information that relates to a specific property.

Planning & Investor Portal

Ideal for an investor with an idea in mind but unsure of where and how to do it.

The tool facilitates searches by proposed land use and identifies suitably zoned land for sale or rent within the search area.

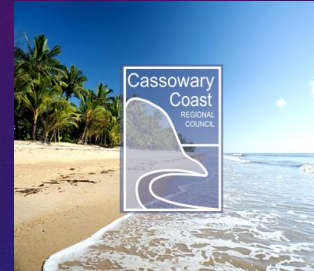

Deceased Search

Search tool facilitates access to historical records for deceased at Council managed cemeteries and crematoria.

Returns information relating to the deceased, headstone image and interactive maps to burial plots.

FloodInForm Report

This report provides property flood information for building & development requirements.

Provides information on estimated flood levels, habitable floor level requirements and more technical information.

Planning Scheme Report

The tool allows users to search any property within the region and obtain General property information, A summary of the applicable planning scheme zones, local plans and overlays;

SPECTRUM SPATIAL TRUEVIEW

Location, redefined

Mission

To harness the power of traditional GIS and spatial analytics, presenting to users via a responsive and intuitive interface.

Position

With Spatial logic defined by administrators, we ensure the "true view" of information - anywhere, any time.

Strengths

Able to communicate with data sources in their native language, bringing all results into a normalized structure. We aim to become a no/low-code platform builder.

Built for Government

Out of the box solution for Australian Local Government

The background features a dark blue gradient with a subtle pattern of white stars and technical diagrams. The diagrams include circular gauges with numerical scales (e.g., 140, 150, 160, 170, 180, 190, 200, 210, 220, 230, 240, 250, 260) and various circular arrows, some solid and some dashed, indicating motion or flow. The text is centered and rendered in a clean, white, sans-serif font.
